

Thinking about how much your surgery will cost

You may contact your insurance company via the phone number on the back of your insurance card. Tell the insurance representative you will be having surgery and would like to get an estimate on what you will have to pay. Give them the procedure code (listed below) of your surgery. Both the doctor and facility use the same code. If asked, ophthalmology is considered a specialist doctor and our facility is an ambulatory surgical center. If you need further assistance, please contact our office at 478-744-1710 Ext. 135.

You are scheduled to have:

- Cataract Surgery:** CPT Code 66984
- Trabeculotomy:** CPT 65820
- CPC:** CPT Code 66710
- YAG:** CPT Code 66821

My Notes

On the day of your surgery, you will be responsible for paying for your drops/tape and any facility co-pay.

Vision Eye Group will contact you prior to surgery if you have a facility co-pay. If you have any questions regarding your co-pay, please contact our office at 478-744-1710 Ext. 135.
